Mohammad Ilyas
Chairman

GFC Fans is one of the largest manufacturers of quality electric fans in Pakistan. Under the leadership of Mr Mohammad Ilyas, the CEO, GFC became the pioneer in the export of electric fans from Pakistan. Starting with its first commercial export in 1993 with a modest quantity & value, GFC is now exporting its products worth USD 16 million annually to more than 30 countries in the World.

GFC fans have become an instant success due to their quality and durability in all the markets where these were introduced including countries in Asia, Middle East, Africa and Europe for their remarkable performance. The constant achievements during the last 35 years have made GFC one of the best fan manufacturers in the world. GFC is registered in many countries and is certified to be the remarkable quality in those countries.

For our persistent performance in export and our superior brand recognition in the local market, GFC became the first company to receive Export Trophy and Brand of the Year award in the fan industry in Pakistan. Ever since GFC has continued to be the recipient of numerous awards of acknowledged of its foremost commitment to producing and exporting high-quality fans.

Furthermore, GFC is also the first-ever company in Pakistan to be certified by UL (Underwriter Laboratories, USA) and CE to export fans in the USA, Canada and European Union.

GFC is the pioneer in introducing the latest technologies in the fan manufacturing industry of Pakistan. The plant & machinery installed in our factory is at par with those installed at manufacturing industries in technologically advanced countries like China, Taiwan, and Vietnam etc.

To provide innovative products to our customers, we at GFC are continuously engaged in bringing in cutting-edge technologies to our plants, and evolving our production process to set the highest standard in the industry.

‘Since 1954, GFC has been the pioneer of the highest quality products in the region. The fans by design are manufactured to provide heavy duty service, long time performance and quiet cooling comfort to meet the need of our customers in hot and humid climates all over the world.’

Keeping in mind acute power shortage in Pakistan and other developing countries where GFC Fans are sold, GFC focuses on the production of energy-conserving fans. Special raw materials for energy-saving fans are being used including Electrical Silicon Steel Sheet, Pure Enameled Copper Wire, High-Quality Ball Bearing and Aerodynamically Designed Fan Blades, made on most modern plants with a highly qualified labour force.

We guarantee to deliver smooth, cooling comfort through our diligently crafted beautiful products that transform your environment. GFC has continuously brought in the latest technology to provide the most advanced and highest product quality. Copper wire is produced at GFC own wire drawing plant since 1987 to safeguard our incomparable quality. Moreover, GFC group has its own capacitor manufacturing unit, Die casting unit, injection moulding unit, Guard making unit, Thermopore making unit, Dies and moulds making unit, Vacuum coating unit. GFC has its own progressive stamping presses, armature winding machines, CNC wire cutting and machining centres.

For the last three decades, GFC has introduced fan models to satisfy the need of its customers all over the globe. We have always been the leader in Pakistan to introduce different kind of commercial fans as well as variation in fan models. The latest of these innovations is Mist Fan, an indigenous design that has been a huge success. Our wide range of product ensures you find exactly what you need for comfort and design.

With GFC's products, you do not have to compromise on either efficiency or aesthetics. Due to high-quality material, our products are durable and are as tough on the inside as they are beautiful on the outside. Furthermore, to ensure unmatched performance, our products are tested several times before they shipped to customers.

- All GFC fans are designed and built to the high quality standards.
- All GFC fans are powered with totally enclosed capacitor type motors.
- All GFC fans are made of silicon steel sheet to give maximum results with minimum Electricity cost.
- All GFC fans have aerodynamically designed blades for maximum air delivery and quiet operation.
- All GFC fans have "E" grade insulation to protect from electric shock.
- All GFC fans are available in 220V & 110V at 50Hz / 60Hz.

Our Mission

Our goal is to exceed customer satisfaction through supreme quality products; manufactured to the highest standards that last a lifetime.

Our Philosophy

We aim to be the Global Market Leaders of the Fan Industry and add to our portfolio of Extraordinary Quality Home appliances, by being highly competitive on the basis of providing unmatched Strong, Reliable and Beautifully Crafted Products.

Our Values

We intend to surpass consumer loyalty through pre-eminent quality products, made to the most astounding measures that endure life time.

Integrity

We are known all over the globe for our strong moral principles, not only in the manufacturing unit but also with regards to our customer relationships. All stakeholders of G.F.C are extremely satisfied with our practices.

Innovation

Our company is always on the lookout for new technology and by fostering a culture of innovation we are able to develop and constantly evolve our products to the best of standards and quality.

Collaboration

GFC is known for its corporate culture based on family values. The effective distribution of responsibilities based on operations of different units is paramount to its successful operations. An ethos of cross department collaboration are always encouraged and have become the heart of our collective methodology. Furthermore, the open door policy allows the sharing of concerns with the top management. This promotes culture of friendliness and continuous idea exchange.
